

JCCNS Open Play Pickleball Procedures

General Rules:

1. JCCNS Open Play Pickleball is inclusive. It is a time for players of ALL levels. It is based on ALL players rotating and switching partners on EVERY game. Please help make this a positive experience for everyone.
2. For those who would like to play with a specific group, there are opportunities to reserve in MotionVibe and play with friends. Members can do this for free, but any non-members will be charged \$15 per visit.
3. During Open Play, a court cannot be held by the 'winners'. All paddles go into the Winner or Non-Winner boxes and players are re-matched up for their next game. This means players of many different levels will learn from each other.
4. If you feel that you cannot play comfortably with all players, please arrange for your group to play during reservation times.

Procedures:

- There are two paddle holders: Winners and Non-Winners. Paddles are always placed in. The “on-deck” group (next up when a court opens) rotates between paddle holders. Four paddles from the Winner holder, then four from the non-Winner holder.
- Place your paddle in the FRONT of the Winners holder when you arrive to get into the rotation.
- When your match is over, place your paddle in the Winner or Non-Winner box, depending on the match outcome.
- When a court opens up, pull the BACK four paddles for the next match. The games rotate between the two holders. Remember to mark the box that is ‘up next’.
- If there is an empty court but neither box contains four paddles, pull paddles as evenly as possible from the back of both boxes to keep the games going.

Any questions, please contact Andrew at (857) 285-7915 or adalton@jccns.com. The non-member fee is \$15 per visit.
